

## [!] Software selection

At the moment, only the core of the system is installed. To tune the system to your needs, you can choose to install one or more of the following predefined collections of software.

Choose software to install:

- ☒ Basic Ubuntu server
- ☐ OpenSSH server
- ☐ DNS server
- ☐ LAMP server
- ☐ Mail server
- ☐ PostgreSQL database
- ☐ Print server
- ☐ Samba file server
- ☐ Tomcat Java server
- ☐ Virtual Machine host
- ☐ Manual package selection
